

Clinical or Community Partnerships

Baptist School of Health Professions - Department of Professional Nursing

Baptist Health System

Baptist Health System offers a work-loan agreement to students on a competitive basis. All tuition and fees are paid for the entire program and the student then agrees to work at one of the five Baptist Health System facilities for three years.

Approximate cost of implementing and maintaining partnership: \$14,000 per student

Grant monies used: no

Expected benefits from partnership:

- students who could not otherwise afford to attend school can do so with the financial help given with the work-loan.

Challenges from partnership: none listed
